

## Purpose

The purpose of this policy is to ensure that Stella College conducts a Pre-Training Review (PTR) and Language, Literacy, Numeracy and Digital (LLND) test for every prospective student prior to enrolment in a nationally recognised qualification.

This review ensures:

- Students are enrolled in the most suitable and appropriate course for their needs and career goals.
- Students possess adequate Language, Literacy, Numeracy and Digital (LLND) skills to successfully undertake their chosen qualification.
- Any required learning support, reasonable adjustments, or referrals are identified and arranged before training begins.

## Scope

This policy applies to:

- All **prospective students** applying to study at Stella College (both government-subsidised and fee-for-service).
- All **courses and qualifications** offered under the Stella College's Scope of Registration.
- **All staff** involved in student enrolment, assessment, or course advice, including trainers and assessors.

## Policy Statement

Stella College ensures that all individuals entering a Nationally Recognised Training program possess the necessary skills and abilities to successfully complete their studies. Stella College provides comprehensive and accurate information to prospective students, enabling them to make well-informed decisions about the most suitable training programs before enrolment. Stella College maintains accurate, transparent, and ethical marketing and pre-enrolment practices to uphold the integrity of its training services. Stella College clearly communicates all pre-requisites, entry requirements, eligibility criteria, fees, and material costs for each training program offered. Stella College offers tailored guidance to prospective students, helping them select training products that best meet their needs, taking into account their existing skills, aspirations, interests, educational background, Language, Literacy, Numeracy and Digital (LLND) capabilities, and prior competencies.

Stella College ensures that all information provided to prospective students is current, accurate, and relevant, supporting informed decision-making regarding training options, fees, and charges, in accordance with the Statement of Fees available on the Stella College website.

Stella College informs prospective students about the requirement for a Unique Student Identifier (USI) and the provision of a Victorian Student Number (VSN), where applicable.

Stella College conducts objective screening of all students to identify eligibility requirements, individual learning needs, and opportunities for recognition of prior learning (RPL) or Credit Transfers.

Stella College assesses the Language, Literacy, Numeracy and Digital (LLND) levels of all prospective students to ensure they have the necessary skills to meet qualification requirements and to determine if any additional learning support is needed.

Stella College is committed to providing quality training that meets the needs of individual learners and

industry requirements. Through this process, Stella College ensures fair access, informed decision-making, and learner success.

## Principles

The Pre-Training Review at Stella College is based on the following principles:

1. **Suitability** – Each student is enrolled in a course that aligns with their abilities, goals, and experience.
2. **Accessibility** – Students are given equal opportunity to participate, with reasonable adjustments where required.
3. **Transparency** – Students are informed of eligibility criteria, pre-requisites, fees, and any funding implications before enrolment.
4. **Support** – Additional academic or personal support needs are identified early and documented in an Individual Support Plan if necessary.

## Assessing the Pre-Training Review

The Pre-Training Review (PTR) process at Stella College ensures that each student is enrolled in a course suited to their current skills, competencies, and learning goals. The PTR assessment is designed to confirm that:

- The student understands the objectives and outcomes of the course they are undertaking.
- Where a student's performance suggests they are not progressing at the required ACSF (Australian Core Skills Framework) level to successfully complete the proposed training, the Trainer will recommend appropriate support.
  - If this support is within the scope of Stella College, it will be provided.
  - If additional or external support is required, the student will be referred to relevant providers or support resources.
- Stella College reviews each student's existing competencies and offers opportunities for assessment through Recognition of Prior Learning (RPL) or Credit Transfer (CT) where applicable.
- Stella College identifies any learning support needs required to help the student successfully complete their course. The student's technical skills are documented in the PTR.
- Stella College discusses and records the student's previous qualifications and considers any formal equivalency evidence provided.
- Stella College also reviews and discusses the student's employment experience.
- The most appropriate course for the student is determined, and the student is provided access to the Student Handbook and the Stella College website for detailed information about available support services.

## Outcomes of the Pre-Training Review and LLND Evaluation

Following the Pre-Training Review, the Trainer and Assessor evaluates the student's Language, Literacy, Numeracy, and Digital (LLND) skills, existing knowledge, and preferred learning strategies. Based on this evaluation, an Individual Training Plan (ITP) is developed, which may include reasonable adjustments to address specific learning needs.

- If RPL or Credit Transfer is applicable, all necessary documentation is collected, and the student is guided to complete the appropriate Credit Transfer/RPL Application Form.
- The Skills Recognition Procedure outlines the detailed process for assessing RPL and Credit Transfer applications.
- The Individual Training Plan considers all prior qualifications, competencies, and transcripts provided by the student.

- Once the LLND assessment and Pre-Training Review are completed, the student is informed of the outcome.
- Successful applicants receive a confirmation of enrolment and are invited to attend Orientation and Induction.

## Appeals

Students have the right to appeal any decision made regarding their admission or enrolment outcome.

- Appeals must be submitted in writing, following the procedures outlined in the Complaints and Appeals Policy and Procedure.
- All students are entitled to fair and transparent treatment under this policy.

If a student believes that a decision made by Stella College administration or relevant authorities is unjust or unfair, they have full access to the Stella College Complaints and Appeals process for review and resolution.

## Monitoring and Evaluation

Stella College monitors and evaluates PTR and LLND processes to ensure performance is effective and outcomes are met. A process of performance monitoring, evaluation, and reporting has been established and implemented. The organisation continually improves the effectiveness and efficiency of processes. Process performance and outcomes are regularly audited to identify and remove causes of existing and potential problems, as well as to uncover any opportunities for improvement. Please refer to the **Quality Policy** for further information on the monitoring and evaluation process.
